

Yard Operative

(Full-Time)

G3 Castleford

About G3 Remarketing

Established in 2009, G3 Remarketing is one of the UK's fastest growing vehicle remarketing and disposal management specialists.

With a purpose-built industry leading facility opened in 2021, the business continues to reshape the expectations of physical and online auctions. Combined with a totally new operational platform and client interfaces, G3 will become the benchmark for all other independent auction businesses throughout the UK and Europe.

Main Responsibilities

OVERVIEW

- Store and locate all vehicles on site between the yard and the auction hall
- Line and lot vehicles for auction, ensuring they are presentable for auction
- Site, transfer, and release vehicles in line with G3 Remarketing Gating Process
- Image vehicles in line with current G3 systems in place
- Always maintain a safe driving standard and adhere to speed limits on site
- Ensure health and safety standards and practices are adhered to in the yard and auction hall so that near misses, accidents to vehicles and customers are prevented
- Carry out any other tasks in the yard department to ensure that operational requirements are met
- Manage, control, and monitor vehicle movement on site
- Be responsible for jump starting vehicles when needed
- Maintain good housekeeping in the yard and work areas at all times
- Ensuring upkeep of all tools, property, and services
- Working closely with Management, Transport, and other departments always
- Taking written and verbal instructions

Other tasks may include

- Unlock / Lock facility buildings if required
- Work later hours when circumstances / operations dictate
- To promote equal opportunities and diversity in service delivery
- To promote G3 Remarketing, its core values and ethos
- To participate in the continuous improvement of service delivery ensuring that policies and procedures comply with legislation and regulatory requirements
- To respect the need for confidentiality, when processing personal / customer data
- Other duties as may be required from time to time

Principle Challenges/ Difficulties

- Remain accustomed or open to working in all-weather conditions
- Have good organisational & communication skills
- Work under pressure to ensure smooth running of site and auction
- Ability to deal with demanding customers

Education and Experience

- Experience within the automotive industry, would be an advantage, however full training will be given
- Good numeracy and literacy skills
- Experience of using handheld electronic devices and computers is essential but training will be provided on using company specific programmes
- A full UK driving licence with no more than 3 points is essential due to the movement of vehicles

Skills, Experience and Knowledge

- Flexibility, as this job may require you to work extra hours shift patterns, as well as the option for weekends and bank holidays depending on volume

- Excellent communication skills with colleagues and customers alike
- Maintain relationships by providing high levels of customer satisfaction
- Initiative to manage your own workload and a willingness to help in other areas of the business

PERSONAL ATTRIBUTES

- Confident
- Self-motivated
- Resilient
- Efficient
- Strong work ethic
